Teleena Netherlands

About Teleena

Teleena is a young and innovative company in mobile telecommunications. We operate our own mobile core network combined with a state-of-art IT infrastructure and are using the radio networks of licensed mobile operators (MNOs). At this moment we have radio network access agreements with Vodafone Netherlands and Vodafone United Kingdom and we are exploring radio network access agreements in other countries.

We enable companies and brands to launch their own mobile services. We offer these 'MVNOs' (Mobile Virtual Network Operators) innovative mobile solutions such as mobile loyalty, multi country SIM cards and fixed/mobile solution in prepaid, postpaid and hybrid propositions. Currently we work with almost 50 people(including 10 different nationalities) in two countries and operate 16 brands, including smart mobile brands like Telesur, UPC, DekaMarkt and hollandsnieuwe. We keep on expanding in customers and countries. The standard is high and we work hard with passion.

We have seen tremendous growth and for the further growth of our market and to support the building of our organization we are looking for a **(Senior) Billing Developer** for our Headquarters in Nieuwegein, The Netherlands.

About the job

The department Billing & Analysis, part of the Finance department, is responsible for all billing processes, invoicing, reporting and analysis. The (senior) Billing Developer is responsible for the development, maintenance and improvement of our rating engine in SQL Server 2008. In this role you will work with all billing processes and you will work closely with 5 colleagues in the department, as well as IT developers and network engineers. We apply various agile methods to achieve an optimal result. Our IT systems are built using the latest Microsoft technologies.

Tasks and responsibilities

- Team responsible for three different invoice cycles:
 - Wholesale
 - Retail
 - CPS
- Maintain, improve, develop and optimize our billing / rating systems and databases
- Owner of the CDR / EDR flow of Teleena
- Monitor of the rating process
- Representative of the Billing & Analysis department in agile development teams
- Monitoring and troubleshooting on the rating server (s) and the SQL Server 2008 databases
- Support the customer support team

About you

- Bachelor Degree and at least 5 years hands-on experience, preferably in an international organization
- Extensive experience with MS SQL Server 2005/2008, at least 5 years
- Experience with software development on Windows platforms

Teleena.com

- (mobile) Telecom experience is an advantage
- A customer-oriented attitude and strong communication skills
- You are eager to learn and a real team player
- Fluent in English, verbally and in writing

We offer

- A challenging work environment with (inter)national customers/suppliers
- A professional organization with great people to work with!
- Possibilities to gain broad mobile network experience
- Opportunities to make a difference, to develop and grow

This is an excellent long-term opportunity for a candidate to be involved in a constantly evolving dynamic organization operating in a sector that is continuously experiencing high growth.

Location

This is a NL based position. Our head office is located in Nieuwegein, The Netherlands.
